Mr. Alec Hunter
Project Manager
Heritage Restoration Inc.
60 Venture Dr.
Unit 16
Scarborough, ON
M1B 3S4

**RE: HERITAGE RESTORATION INC.
STATEMENT OF QUALIFICATION**

This letter is to document for your records that I have worked with Heritage Restoration on several projects of municipal water tank coating and lining applications.

These projects involved the use high performance coating systems including plural component spray application and fluorourethane technologies.

I conclude that the management and labour force of Heritage Restoration Inc. have the capabilities and knowledge to work on similar type projects that involve surface preparation, application and environmental control as required to apply these high performance materials.

Please call with any questions.

Sincerely,

David Walker
Coating Consultant
